- Forward-looking statements in this release regarding future earnings, cash flows, returns, volumes, new projects, market strategies, or key milestones refer to plans outlined at ExxonMobil's Investor Day held on March 6, 2019, except for our third quarter outlook on pages 10 through 11. The growth figures presented at that meeting are not forecasts of actual future results but were intended to help quantify future potential and goals of management plans and initiatives. See the complete March 6, 2019 presentation available in archive form (including the Cautionary Statement and Supplemental Information included with that presentation) on the Investors page of our website at www.exxonmobil.com for more detailed information. That material includes a description of the assumptions underlying these potential growth estimates including a flat real oil price of \$60 Brent per barrel (which is not intended to be a forecast of future prices), downstream and chemical margins consistent with 2017 levels, and future gas prices consistent with our internal company plans, as well as a reconciliation of adjusted 2018 earnings used as a baseline.
