

Cautionary statement

- **Forward-Looking Statements.** Statements of future events or conditions in this presentation or the subsequent discussion period are forward-looking statements. Actual future results, including financial and operating performance; demand growth and mix; ExxonMobil's volume/production growth and mix; the amount and mix of capital expenditures; resource recoveries; production rates; rates of return; development costs; project plans, timing, costs, and capacities; drilling programs and efficiency improvements; product sales and mix; dividend and share purchase levels; cash and debt balances; potential impairment charges; corporate and financing expenses; and the impact of technology could differ materially due to a number of factors; including changes in oil or gas prices or other market or economic conditions affecting the oil, gas, and petrochemical industries and the demand for our products; reservoir performance; the outcome and timeliness of exploration and development projects; war and other political or security disturbances; changes in law or government regulation, including sanctions as well as tax and environmental regulations; the outcome of commercial negotiations; the impact of fiscal and commercial terms; opportunities for investments or divestments that may arise; the actions of competitors and customers; the outcome of future research efforts; unexpected technological developments; unforeseen technical difficulties; and other factors discussed here and under the heading "Factors Affecting Future Results" in the Investors section of our Web site at exxonmobil.com. Forward-looking statements are based on management's knowledge and reasonable expectations on the date hereof, and we assume no duty to update these statements as of any future date.
- **Frequently Used Terms.** References to recoverable resources, oil equivalent barrels, and other quantities of oil, gas or condensate include volumes that are not yet classified as proved reserves under SEC definitions but that we believe will likely be developed and moved into the proved reserves category in the future. Shareholder distributions referred to in this presentation mean cash dividends plus any shares purchased to reduce shares outstanding (excluding anti-dilutive purchases). Unless otherwise indicated, references to rates of return mean discounted cash flow returns based on current company estimates. For definitions and more information regarding resources, reserves, cash flow from operations and asset sales, free cash flow, net investment, and other terms used in this presentation, see the "Frequently Used Terms" posted on the Investors section of our Web site and the additional information in this presentation and the earnings release 8-K filed today. The Financial and Operating Review on our Web site also shows ExxonMobil's net interest in specific projects.
- The term 'project' as used in this presentation can refer to a variety of different activities and does not necessarily have the same meaning as in any government payment transparency reports.
