ExxonMobil

Beaumont Area

Energy lives here™

LAND AREA: 2,770 acres

WORKFORCE: 2,255 employees and 4,109 contractors*

PRODUCTION: Four integrated refining and petrochemical facilities

PRODUCTS: Premium and regular gasoline, premium and regular gasoline, low sulfur diesel fuel, jet fuel, liquid petroleum gases, fuel oil blendstock, petroleum coke, petroleum feedstocks, catalysts, ethylene, propylene, crude butadiene, benzene, paraxylene and high performance base stocks, as well as 365 lube oil products in 1,250 package combinations and 69 grease products in 230 package combinations
- Lube oils
- Greases
- The only manufacturer of Mobil Aviation Greases
- Mobil 1, the world's leading synthetic motor oil
- Manufacturer of Synthetic Oil and Greases used in the wind turbine industry

TAXES: $67.1 million in local taxes paid annually

COMMUNITY INVOLVEMENT: Employees and retirees volunteered 9,468 hours in 2020 and contributed $149,000 in VIP matching grants

GENERAL INFORMATION:
Built along the banks of the Neches River in 1903, the original Beaumont refining facilities have grown into an integrated petrochemical complex that today supports the energy needs of our nation and the world.

ExxonMobil operations in Beaumont span four facilities and approximately 2,700 acres. The refinery, chemical plant and lube plant are located on approximately 2,400 acres near downtown Beaumont. The polyethylene plant, established in 1977, occupies approximately 375 acres west of Beaumont. In 2019, the refinery began construction on its Beaumont Light Atmospheric Distillation Expansion project (BLADE), which will increase crude refining capacity by 65 percent, or 250,000 barrels per day. The project is expected to create 1,850 construction jobs and between 40 and 60 permanent jobs upon completion. In 2019, an expansion at the polyethylene plant was completed, increasing production of high-performance polyethylene by 65 percent, or 650,000 tonnes per year.

As of January 2021. Dependent on construction projects and turnarounds.
