

**Kerry M. Moreland**  
**Senior Corporate Advisor**  
**Exxon Mobil Corporation**

Kerry Moreland currently holds the role of Senior Corporate Advisor supporting Exxon Mobil Corporation's management committee on strategy development, external messaging, and Board of Directors' communications.

Kerry previously served as Vice President Established Areas, Exploration and New Ventures, ExxonMobil Upstream Business Development Company. In this role, she had responsibility for managing the Corporation's exploration acreage in-and-around established assets and for evaluating new opportunities across a broad geographic spectrum.

Notably, she served as the Guyana Exploration Manager from 2014 to 2018, where the Corporation announced multiple discoveries, including the world-class Liza discovery in 2015. ExxonMobil has made more than 30 discoveries and discovered nearly 11 billion oil-equivalent barrels of recoverable resource on the Stabroek Block to date.

Kerry began her career at ExxonMobil in 2005 after completing her bachelor's degree in Geoscience and master's degree in Geophysics from the University of Oklahoma. During her 18-year career, she has worked on projects in more than 25 countries across the globe.

Her extensive work in developing countries has positioned her as a sustainable development advocate, witnessing firsthand the positive impact of investing in women and the opportunities the energy sector provides to build communities. She is a passionate mentor, actively developing the next generation of energy leaders through the University of Oklahoma Mewbourne College of Earth and Energy Board of Visitors, School of Geosciences Alumni Advisory Council, and the ExxonMobil WIN Global Executive Advisory Council.

Outside of her professional life, Moreland enjoys spending time with her husband, Kip, and traveling with her family.
