

An ExxonMobil Brand

Community notification system registration request

Mobil has developed a system to provide local residents with a message alert on their mobile phone in the unlikely event a major operational incident occurs at its Altona operations.

Any local resident who chooses to subscribe to this system will receive a message-text on their nominated mobile phone along with the contact number for the refinery Community Information Line. The alert notification does not replace any notification, guidance or direction provided by the emergency services.

The system will not be used for any commercial activities or to provide you with an update on routine refinery activities or event and you details will be treated in accordance with the *Privacy Act 1988 (Cth)*.

To subscribe to this system you will need to provide Mobil with your name, date-of-birth and mobile phone number. You will also need to provide your written consent as per the form below.

Mobil will contact you on an annual basis to confirm that your mobile phone number is still current and if you wish to continue to subscribe; however subscribers are encouraged to contact Mobil should their details change.

You can unsubscribe from this service by emailing us **communityanz@exxonmobil.com**, confirming your contact details as provided below.

Authorisation form

By completing this form you authorise Mobil to send you an SMS text at any time to your nominated mobile phone in the unlikely event that there is a significant operational disturbance at its Altona operations. You release and forever discharge Mobil, its agents, officers, and employees from any and all claims and demands arising with sending you an SMS notification. No fee is applicable to this service.

You can unsubscribe from this service at any time by emailing us at **communityanz@exxonmobil.com**, confirming your contact details below.

Family Name	
First Name	
Postcode	
Mobile Phone Number	
Date-of-birth (used for identification purposes only)
