

November 2024

Dear Occupier

### COMMUNITY COMAH INFORMATION

On behalf of ExxonMobil Fawley please find enclosed your updated COMAH Emergency documents, which should be kept in your household or business premises at all times. In the envelope you will find your safety information guidance booklet and Emergency Instructions Card.

**Both documents are important. Please read them carefully and keep the Emergency Instructions Card and further guidance in a safe place where you can quickly and easily refer to them should the need arise.**

### Internet and freephone information

COMAH information can also be found on our website:

[exxonmobil.co.uk/community-engagement/key-locations/fawley-operations/emergency-response](https://exxonmobil.co.uk/community-engagement/key-locations/fawley-operations/emergency-response)

The webpage includes a screen reading function, enabling you to listen to the content of the enclosed leaflet and the Emergency Instructions Card, in addition to hearing the alarm sound.

The audible version is also available via our freephone number (0800 169 3597), which repeats the emergency instructions provided on the card and plays a recording of the sound made by the COMAH alarm. You can also leave a message to request a large print version of all the enclosed information.

If you need this information translated into a different language, please contact ExxonMobil Fawley's Community Relations Advisor using the contact details at the beginning of this letter.

### Our commitment to you

ExxonMobil Fawley is committed to upholding the highest standards of safety for our neighbouring communities. We will continue to work together to meet and, where possible, improve on these standards both now and into the future.

Yours sincerely
