

Baytown Technology & Engineering Complex

Fact Sheet

Land Area

- Approximately 70 acres

Workforce

- Approximately 600 employees with an average of 150 contract personnel and 110 PhDs.

Production

- BTEC is home to employees who provide technical support to all of ExxonMobil's chemical product lines such as Olefins; Aromatics; Intermediates such as hydrocarbon and oxygenated fluids; Polymers such as polyethylene, polypropylene, elastomers, butyl rubber and adhesion products; and Synthetic lubricants such as Mobil 1© products.
- Services span research and development, product and process scale-up, and technology support for ExxonMobil's customers.
- BTEC also houses the technical capabilities needed to support the development of sustainable solutions, from advanced recycling of plastic waste to novel technologies for ExxonMobil's Low Carbon Solutions business

Taxes

- Approximately \$2.7 million.

Community Involvement

- Annually, Baytown area employees, retirees and their families contribute thousands of hours volunteering. In recognition of these efforts, ExxonMobil contributed thousands of dollars in volunteer grants in 2025 to non-profits organizations where they volunteered.
- Area charitable contributions totaled more than \$1.7M in 2025
- In addition, ExxonMobil employees and retirees raised over \$1million for the 2025 United Way of Greater Baytown Area and Chambers County Campaign.

Safety

- The ExxonMobil Baytown Technology & Engineering Complex has a strong safety culture. BTEC has maintained an outstanding safety record, with no employee injuries recorded in the past eight years.
