## PROCEDURES AND OPEN DOOR COMMUNICATION

- Procedures & Open Door Communication ....................................................................... 23
INTRODUCTION

The high quality of the directors, officers, and employees of Exxon Mobil Corporation is the Corporation’s greatest strength. The resourcefulness, professionalism, and dedication of those directors, officers, and employees make the Corporation competitive in the short term and well positioned for ongoing success in the long term.

The Corporation’s directors, officers, and employees are responsible for developing, approving, and implementing plans and actions designed to achieve corporate objectives. The methods we employ to attain results are as important as the results themselves. The Corporation’s directors, officers, and employees are expected to observe the highest standards of integrity in the conduct of the Corporation’s business.

The Board of Directors of the Corporation has adopted and oversees the administration of the Corporation’s Standards of Business Conduct. The policies in the Standards of Business Conduct are the foundation policies of the Corporation. Wholly-owned and majority-owned subsidiaries of Exxon Mobil Corporation generally adopt policies similar to the Corporation’s foundation policies. Thus, the Corporation’s foundation policies collectively express the Corporation’s expectations and define the basis for the worldwide conduct of the businesses of the Corporation and its majority-owned subsidiaries.

The directors, officers, and employees of Exxon Mobil Corporation are expected to review these foundation policies periodically and apply them to all of their work. The Corporation publishes from time to time guidelines with respect to selected policies. Those guidelines are interpretive and administrative and are not part of the Standards of Business Conduct. Any employee who has questions concerning any aspect of these policies should not hesitate to seek answers from management or the other sources indicated in the section below called “Procedures and Open Door Communication.”

No one in the ExxonMobil organization has the authority to make exceptions or grant waivers with respect to the foundation policies. Regardless of how much difficulty we encounter or pressure we face in performing our jobs, no situation can justify the willful violation of these policies. Our reputation as a corporate citizen depends on our understanding of and compliance with these policies.

Darren W. Woods
Chairman
January 2017
GUIDING PRINCIPLES

Exxon Mobil Corporation is committed to being the world’s premier petroleum and petrochemical company. To that end, we must continuously achieve superior financial and operating results while simultaneously adhering to high ethical standards.

The following principles guide our relationships with our shareholders, customers, employees, and communities:

Shareholders - We are committed to enhancing the long-term value of the investment dollars entrusted to us by our shareholders. By running the business profitably and responsibly, we expect our shareholders to be rewarded with superior returns. This commitment drives the management of our corporation.

Customers - Success depends on our ability to consistently satisfy ever changing customer preferences. We commit to be innovative and responsive, while offering high quality products and services at competitive prices.

Employees - The exceptional quality of our workforce provides a valuable competitive edge. To build on this advantage, we will strive to hire and retain the most qualified people available and to maximize their opportunities for success through training and development. We are committed to maintaining a safe work environment enriched by diversity and characterized by open communication, trust, and fair treatment.

Communities - We commit to be a good corporate citizen in all the places we operate worldwide. We will maintain high ethical standards, obey all applicable laws, rules, and regulations, and respect local and national cultures. Above all other objectives, we are dedicated to running safe and environmentally responsible operations.

Exxon Mobil Corporation aspires to be at the leading edge of competition in every aspect of our business. That requires the Corporation’s resources – financial, operational, technological, and human – to be employed wisely and evaluated regularly.

While we maintain flexibility to adapt to changing conditions, the nature of our business requires a focused, long-term approach. We will consistently strive to improve efficiency and productivity through learning, sharing, and implementing best practices. We will be disciplined and selective in evaluating the range of capital investment opportunities available to us. We will seek to develop proprietary technologies that provide a competitive edge.

We aspire to achieve our goals by flawlessly executing our business plans and by adhering to these guiding principles and the foundation policies that follow.
ETHICS POLICY

The policy of Exxon Mobil Corporation is to comply with all governmental laws, rules, and regulations applicable to its business.

The Corporation’s Ethics policy does not stop there. Even where the law is permissive, the Corporation chooses the course of highest integrity. Local customs, traditions, and mores differ from place to place, and this must be recognized. But honesty is not subject to criticism in any culture. Shades of dishonesty simply invite demoralizing and reprehensible judgments. A well-founded reputation for scrupulous dealing is itself a priceless corporate asset.

The Corporation cares how results are obtained, not just that they are obtained. Directors, officers, and employees should deal fairly with each other and with the Corporation’s suppliers, customers, competitors, and other third parties.

The Corporation expects compliance with its standard of integrity throughout the organization and will not tolerate employees who achieve results at the cost of violation of law or who deal unscrupulously. The Corporation’s directors and officers support, and expect the Corporation’s employees to support, any employee who passes up an opportunity or advantage that would sacrifice ethical standards.

It is the Corporation’s policy that all transactions will be accurately reflected in its books and records. This, of course, means that falsification of books and records and the creation or maintenance of any off-the-record bank accounts are strictly prohibited. Employees are expected to record all transactions accurately in the Corporation’s books and records, and to be honest and forthcoming with the Corporation’s internal and independent auditors.

The Corporation expects candor from employees at all levels and adherence to its policies and internal controls. One harm which results when employees conceal information from higher management or the auditors is that other employees think they are being given a signal that the Corporation’s policies and internal controls can be ignored when they are inconvenient. That can result in corruption and demoralization of an organization. The Corporation’s system of management will not work without honesty, including honest bookkeeping, honest budget proposals, and honest economic evaluation of projects.

It is the Corporation’s policy to make full, fair, accurate, timely, and understandable disclosure in reports and documents that the Corporation files with the United States Securities and Exchange Commission, and in other public communications. All employees are responsible for reporting material information known to them to higher management so that the information will be available to senior executives responsible for making disclosure decisions.
CONFLICTS OF INTEREST POLICY

It is the policy of Exxon Mobil Corporation that directors, officers, and employees are expected to avoid any actual or apparent conflict between their own personal interests and the interests of the Corporation. A conflict of interest can arise when a director, officer, or employee takes actions or has personal interests that may interfere with his or her objective and effective performance of work for the Corporation. For example, directors, officers, and employees are expected to avoid actual or apparent conflict in dealings with suppliers, customers, competitors, and other third parties. Directors, officers, and employees are expected to refrain from taking for themselves opportunities discovered through their use of corporate assets or through their positions with the Corporation. Directors, officers, and employees are expected to avoid securities transactions based on material, nonpublic information learned through their positions with the Corporation. Directors, officers, and employees are expected to refrain from competing with the Corporation.
CORPORATE ASSETS POLICY

It is the policy of Exxon Mobil Corporation that directors, officers, and employees are expected to protect the assets of the Corporation and use them efficiently to advance the interests of the Corporation. Those assets include tangible assets and intangible assets, such as confidential information of the Corporation or personal information held by the Corporation. No director, officer, or employee should use or disclose at any time during or subsequent to employment or other service to the Corporation, without proper authority or mandate, personal or confidential information obtained from any source in the course of the Corporation’s business. Examples of confidential information include nonpublic information about the Corporation’s plans, earnings, financial forecasts, business forecasts, discoveries, competitive bids, technologies, and personnel.
DIRECTORSHIPS POLICY

It is the policy of Exxon Mobil Corporation to restrict the holding by officers and employees of directorships in nonaffiliated, for-profit organizations and to prohibit the acceptance by any officer or employee of such directorships that would involve a conflict of interest with, or interfere with, the discharge of the officer’s or employee’s duties to the Corporation. Any officer or employee may hold directorships in nonaffiliated, nonprofit organizations, unless such directorships would involve a conflict of interest with, or interfere with, the discharge of the officer’s or employee’s duties to the Corporation, or obligate the Corporation to provide support to the nonaffiliated, nonprofit organizations. Officers and employees may serve as directors of affiliated companies and such service may be part of their normal work assignments.

All directorships in public companies held by directors of the Corporation are subject to review and approval by the Board of Directors of the Corporation. In all other cases, directorships in nonaffiliated, for-profit organizations are subject to review and approval by the management of the Corporation, as directed by the Chairman.
GIFTS AND ENTERTAINMENT POLICY

It is the policy of Exxon Mobil Corporation to base commercial decisions on commercial criteria. That policy serves the Corporation’s business interests and fosters constructive relationships with organizations and individuals doing business, or seeking to do business, with the Corporation. In many cultures, those constructive relationships may include incidental business gifts and entertainment. Directors, officers, employees, and third parties acting on behalf of the Corporation providing or receiving third party gifts and entertainment in their corporate capacities are expected to exercise good judgment in each case, taking into account pertinent circumstances, including the character of the gift or entertainment, its purpose, its appearance, the positions of the persons providing and receiving the gift or entertainment, the business context, reciprocity, and applicable laws and social norms. Gifts and entertainment must not be intended to create an improper advantage for the Corporation. All expenditures for gifts and entertainment provided by the Corporation must be accurately recorded in the books and records of the Corporation.
ANTI-CORRUPTION POLICY

It is the policy of Exxon Mobil Corporation that directors, officers, employees, and third parties acting on its behalf are prohibited from offering or paying, directly or indirectly, any bribe to any employee, official, or agent of any government, commercial entity, or individual in connection with the business or activities of the Corporation. A bribe for purposes of this policy is any money, goods, services, or other thing of value offered or given with the intent to gain any improper advantage for the Corporation.

No director, officer, employee, or third party should assume that the Corporation’s interest ever requires otherwise.
POLITICAL ACTIVITIES POLICY

It is the policy of Exxon Mobil Corporation to refrain from making contributions to political candidates and political parties, except as permitted by applicable laws and authorized by the Board of Directors.

It is the Corporation’s policy to communicate information and views on issues of public concern that have an important impact on the Corporation.

The Corporation considers that registering and voting, contributing financially to the party or candidate of one’s choice, keeping informed on political matters, serving in civic bodies, and campaigning and officeholding at local, state, and national levels are important rights and responsibilities of the citizens of a democracy.

Directors, officers, and employees engaging in political activities are expected to do so as private citizens and not as representatives of the Corporation. Personal, lawful, political contributions and decisions not to make contributions will not influence compensation, job security, or opportunities for advancement.
INTERNATIONAL OPERATIONS POLICY

It is the policy of Exxon Mobil Corporation to comply with all governmental laws, rules, and regulations applicable to its operations outside the United States and to conduct those operations to the highest ethical standards.

Laws that apply to operations outside the United States include those of the countries where the operations occur, and may also include certain United States laws which govern international operations of United States companies and United States persons, broadly defined. Accordingly, directors, officers, and employees of the Corporation who are involved with the Corporation’s operations outside the United States should consult with the Law Department for advice on applicable United States laws, especially laws regarding boycotts, trade sanctions, export controls, and foreign corrupt practices, and are expected to comply with those laws.
ANTITRUST POLICY

It is the policy of Exxon Mobil Corporation that directors, officers, and employees are expected to comply with the antitrust and competition laws of the United States and with those of any other country or group of countries which are applicable to the Corporation’s business.

No director, officer, or employee should assume that the Corporation’s interest ever requires otherwise.

It is recognized that, on occasion, there may be legitimate doubt as to the proper interpretation of the law. In such a circumstance, it is required that the directors, officers, and employees refer the case through appropriate channels to the Law Department for advice.
HEALTH POLICY

It is Exxon Mobil Corporation’s policy to:

• identify and evaluate health risks related to its operations that potentially affect its employees, contractors or the public;

• implement programs and appropriate protective measures to control such risks, including appropriate monitoring of its potentially affected employees;

• communicate in a reasonable manner to potentially affected individuals or organizations and the scientific community knowledge about health risks gained from its health programs and related studies;

• determine at the time of employment and thereafter, as appropriate, the medical fitness of employees to do their work without undue risk to themselves or others;

• provide or arrange for medical services necessary for the treatment of employee occupational illnesses or injuries and for the handling of medical emergencies;

• comply with all applicable laws and regulations, and apply responsible standards where laws and regulations do not exist;

• work with government agencies and others to develop responsible laws, regulations, and standards based on sound science and consideration of risk;

• conduct and support research to extend knowledge about the health effects of its operations;

• undertake appropriate reviews and evaluations of its operations to measure progress and to foster compliance with this policy;

• provide voluntary health promotion programs designed to enhance employees’ well being, productivity, and personal safety. These programs should supplement, but not interfere with, the responsibility of employees for their own health care and their relationships with personal physicians. Information about employees obtained through the implementation of these programs should be considered confidential and should not be revealed to non-medical personnel except: at the request of the employee concerned, when required by law, when dictated by overriding public health considerations, or when necessary to implement the Alcohol and Drug Use policy.
ENVIRONMENT POLICY

It is Exxon Mobil Corporation’s policy to conduct its business in a manner that is compatible with the balanced environmental and economic needs of the communities in which it operates. The Corporation is committed to continuous efforts to improve environmental performance throughout its operations.

Accordingly, the Corporation’s policy is to:

• comply with all applicable environmental laws and regulations and apply responsible standards where laws and regulations do not exist;

• encourage concern and respect for the environment, emphasize every employee’s responsibility in environmental performance, and foster appropriate operating practices and training;

• work with government and industry groups to foster timely development of effective environmental laws and regulations based on sound science and considering risks, costs, and benefits, including effects on energy and product supply;

• manage its business with the goal of preventing incidents and of controlling emissions and wastes to below harmful levels; design, operate, and maintain facilities to this end;

• respond quickly and effectively to incidents resulting from its operations, in cooperation with industry organizations and authorized government agencies;

• conduct and support research to improve understanding of the impact of its business on the environment, to improve methods of environmental protection, and to enhance its capability to make operations and products compatible with the environment;

• communicate with the public on environmental matters and share its experience with others to facilitate improvements in industry performance;

• undertake appropriate reviews and evaluations of its operations to measure progress and to foster compliance with this policy.
SAFETY POLICY

It is Exxon Mobil Corporation’s policy to conduct its business in a manner that protects the safety of employees, others involved in its operations, customers, and the public. The Corporation will strive to prevent all accidents, injuries, and occupational illnesses through the active participation of every employee. The Corporation is committed to continuous efforts to identify and eliminate or manage safety risks associated with its activities.

Accordingly, the Corporation’s policy is to:

• design and maintain facilities, establish management systems, provide training and conduct operations in a manner that safeguards people and property;

• respond quickly, effectively, and with care to emergencies or accidents resulting from its operations, in cooperation with industry organizations and authorized government agencies;

• comply with all applicable laws and regulations, and apply responsible standards where laws and regulations do not exist;

• work with government agencies and others to develop responsible laws, regulations, and standards based on sound science and consideration of risk;

• conduct and support research to extend knowledge about the safety effects of its operations, and promptly apply significant findings and, as appropriate, share them with employees, contractors, government agencies, and others who might be affected;

• stress to all employees, contractors, and others working on its behalf their responsibility and accountability for safe performance on the job and encourage safe behavior off the job;

• undertake appropriate reviews and evaluations of its operations to measure progress and to foster compliance with this policy.
PRODUCT SAFETY POLICY

It is Exxon Mobil Corporation’s policy to:

• identify and manage risks associated with its products and not manufacture or sell products when it is not possible through proper design, procedures, and practices to provide an appropriate level of safety for people and the environment;

• specify precautions required in handling, transporting, using, and disposing of its products and take reasonable steps to communicate them to employees, customers, and others who might be affected;

• comply with all applicable laws and regulations and apply responsible standards where laws and regulations do not exist;

• work with government agencies and others, as appropriate, to develop responsible laws, regulations, and standards based on sound science and consideration of risk;

• include identification and control of potentially adverse health, safety, and environmental effects as priority considerations in the planning and development of products;

• conduct and support research to extend knowledge about the health, safety and environmental effects of its products, and promptly apply significant findings and, as appropriate, share them with its employees, contractors, customers, the scientific community, government agencies, and the public;

• undertake appropriate reviews and evaluations of its operations to measure progress and to foster compliance with this policy.
CUSTOMER RELATIONS AND PRODUCT QUALITY POLICY

Exxon Mobil Corporation recognizes customer satisfaction is of primary importance to its success. Mindful of its responsibility to the consumers it serves directly and the customers who resell its products, the Corporation strives to understand their requirements and concerns and to merit their business by responding effectively to their needs.

Specifically, the Corporation’s policy is to:

• provide high-quality products that meet or exceed equipment specifications and consumer needs under all reasonable circumstances;

• furnish services that reliably meet responsible standards of performance, efficiency, and courtesy;

• furnish accurate and sufficient information about its products and services, including details of guarantees and warranties, so that customers can make informed purchasing decisions;

• require truth in advertising and other communications.

In addition, where the Corporation’s products reach the ultimate consumer through independent parties, such as service station dealers and distributors, the Corporation’s policy is to actively encourage such parties to achieve standards comparable to those which have been established for the Corporation’s own performance.
ALCOHOL AND DRUG USE POLICY

Exxon Mobil Corporation is committed to a safe, healthy, and productive workplace for all employees. The Corporation recognizes that alcohol, drug, or other substance abuse by employees will impair their ability to perform properly and will have serious adverse effects on the safety, efficiency and productivity of other employees and the Corporation as a whole. The misuse of legitimate drugs, or the use, possession, distribution or sale of illicit or unprescribed controlled drugs on company business or premises, is strictly prohibited and is grounds for termination. Possession, use, distribution, or sale of alcoholic beverages on company premises is not allowed without prior approval of appropriate senior management. Being unfit for work because of use of drugs or alcohol is strictly prohibited and is grounds for termination of employment. While this policy refers specifically to alcohol and drugs, it is intended to apply to inhalants and all other forms of substance abuse.

The Corporation recognizes alcohol or drug dependency as a treatable condition. Employees who suspect they have an alcohol or drug dependency are encouraged to seek advice and to follow appropriate treatment promptly before it results in job performance problems. Employee Assistance Program or medical professional staff will advise and assist in securing treatment. Those employees who follow approved treatment will receive disability benefits in accordance with the provisions of established benefit plans and medical insurance coverage consistent with existing plans.

No employee with alcohol or drug dependency will be terminated due to the request for help in overcoming that dependency or because of involvement in a rehabilitation effort. However, an employee who has had or is found to have a substance abuse problem will not be permitted to work in designated positions identified by management as being critical to the safety and wellbeing of employees, the public, or the Corporation. Any employee returning from rehabilitation will be required to participate in a company-approved aftercare program. If an employee violates provisions of the employee Alcohol and Drug Use policy, appropriate disciplinary action will be taken. Such action cannot be avoided by a request at that time for treatment or rehabilitation. If an employee suffering from alcohol or drug dependency refuses rehabilitation or fails to respond to treatment or fails to meet satisfactory standards of effective work performance, appropriate disciplinary action, up to and including termination, will be taken. This policy does not require and should not result in any special regulations, privileges, or exemptions from normal job performance requirements.
THE CORPORATION may conduct unannounced searches for drugs and alcohol on company owned or controlled property. The Corporation may also require employees to submit to medical evaluation or alcohol and drug testing where cause exists to suspect alcohol or drug use, including workplace incidents.

Unannounced periodic or random testing will be conducted when an employee meets any one of the following conditions: has had a substance abuse problem, or is working in a designated position identified by management, a position where testing is required by law, or a specified executive position. A positive test result or refusal to submit to a drug or alcohol test is grounds for disciplinary action, including termination.

Contractor, common carrier, and vendor personnel are also covered by paragraph one and the search provisions of paragraph four of this policy. Those who violate the policy will be removed from company premises and may be denied future entry.

In addition to the above policy, it is a requirement of the Corporation that all applicants accepting offers of regular employment must pass a drug test.
EQUAL EMPLOYMENT OPPORTUNITY POLICY

It is the policy of Exxon Mobil Corporation to provide equal employment opportunity in conformance with all applicable laws and regulations to individuals who are qualified to perform job requirements. The Corporation administers its personnel policies, programs, and practices in a nondiscriminatory manner in all aspects of the employment relationship, including recruitment, hiring, work assignment, promotion, transfer, termination, wage and salary administration, and selection for training.

Managers and supervisors are responsible for implementing and administering this policy, for maintaining a work environment free from unlawful discrimination, and for promptly identifying and resolving any problem area regarding equal employment opportunity.

In addition to providing equal employment opportunity, it is also the Corporation’s policy to undertake special efforts to:

• develop and support educational programs and recruiting sources and practices that facilitate employment of minorities and women;

• develop and offer work arrangements that help to meet the needs of the diverse work force in balancing work and family obligations;

• establish company training and developmental efforts, practices, and programs that support diversity in the work force and enhance the representation of minorities and women throughout the Corporation;

• foster a work environment free from sexual, racial, or other harassment;

• make reasonable accommodations that enable qualified disabled individuals to perform the essential functions of their jobs;

• emphasize management responsibility in these matters at every level of the organization.

Individuals who believe they have observed or been subjected to prohibited discrimination should immediately report the incident to their supervisors, higher management, or their designated Human Resources Department contacts.

Individuals will not be subjected to harassment, intimidation, discrimination, or retaliation for exercising any of the rights protected by this policy and the various EEO statutes.
EQUAL EMPLOYMENT OPPORTUNITY POLICY
(modified for application in the United States)

It is the policy of Exxon Mobil Corporation to provide equal employment opportunity in conformance with all applicable laws and regulations to individuals who are qualified to perform job requirements regardless of their race, color, sex, religion, national origin, citizenship status, age, genetic information, physical or mental disability, veteran, sexual orientation, gender identity or other legally protected status. The Corporation administers its personnel policies, programs, and practices in a nondiscriminatory manner in all aspects of the employment relationship, including recruitment, hiring, work assignment, promotion, transfer, termination, wage and salary administration, and selection for training.

Managers and supervisors are responsible for implementing and administering this policy, for maintaining a work environment free from unlawful discrimination, and for promptly identifying and resolving any problem area regarding equal employment opportunity.

In addition to providing equal employment opportunity, it is also the Corporation’s policy to undertake special efforts to:

• develop and support educational programs and recruiting sources and practices that facilitate employment of minorities and women;

• develop and offer work arrangements that help to meet the needs of the diverse work force in balancing work and family obligations;

• establish company training and developmental efforts, practices, and programs that support diversity in the work force and enhance the representation of minorities and women throughout the Corporation;

• foster a work environment free from sexual, racial, or other harassment;

• make reasonable accommodations that enable qualified disabled individuals to perform the essential functions of their jobs;

• emphasize management responsibility in these matters at every level of the organization.

Individuals who believe they have observed or been subjected to prohibited discrimination should immediately report the incident to their supervisors, higher management, or their designated Human Resources Department contacts.

Individuals will not be subjected to harassment, intimidation, threats, coercion, discrimination, or retaliation for opposing any unlawful act or practice, or making a complaint, assisting or participating in an investigation or any other proceeding, or otherwise exercising any of the rights protected by this policy or any federal, state, or local EEO laws.
HARASSMENT IN THE WORKPLACE POLICY

It is the policy of Exxon Mobil Corporation to prohibit any form of harassment in any company workplace. The objective of this policy is to provide a work environment that fosters mutual employee respect and working relationships free of harassment. The Corporation specifically prohibits any form of harassment by or toward employees, contractors, suppliers, or customers.

Under the Corporation’s policy, harassment is any inappropriate conduct which has the purpose or effect of:

- creating an intimidating, hostile, or offensive work environment;
- unreasonably interfering with an individual’s work performance; or
- affecting an individual’s employment opportunity.

Harassment will not be tolerated. Forms of harassment include, but are not limited to, unwelcome verbal or physical advances and sexually, racially, or otherwise derogatory or discriminatory materials, statements, or remarks. All employees, including supervisors and managers, will be subject to disciplinary action up to and including termination for any act of harassment.

Individuals who believe they have been subjected to harassment should immediately report the incident to their supervisors, higher management, or their designated Human Resources Department contacts. All complaints will be promptly and thoroughly investigated.

Employees or supervisors who observe or become aware of harassment should immediately advise their supervisors, higher management, or their designated Human Resources Department contacts. No employee should assume that the Corporation is aware of a problem. All complaints and concerns should be brought to management’s or the Human Resources Department’s attention so that appropriate corrective steps can be taken.

No retaliation will be taken against any employee because he or she reports a problem concerning possible acts of harassment. Employees can raise concerns and make reports without fear of reprisal. Questions about what constitutes harassing behavior should be directed to the employee’s supervisor or Human Resources Department contact.
HARASSMENT IN THE WORKPLACE POLICY
(modified for application in the United States)

It is the policy of Exxon Mobil Corporation to prohibit any form of harassment in any company workplace. The policy prohibits unlawful harassment based on race, color, sex, religion, national origin, citizenship status, age, genetic information, physical or mental disability, veteran, sexual orientation, gender identity or other protected status, as well as any other form of harassment, even if the harassing conduct is lawful. The objective of this policy is to provide a work environment that fosters mutual employee respect and working relationships free of harassment. The Corporation specifically prohibits any form of harassment by or toward employees, contractors, suppliers, or customers.

Under the Corporation’s policy, harassment is any inappropriate conduct, which has the purpose or effect of:

• creating an intimidating, hostile, or offensive work environment;

• unreasonably interfering with an individual’s work performance; or

• affecting an individual’s employment opportunity.

Harassment will not be tolerated. Forms of harassment include, but are not limited to, unwelcome verbal or physical advances and sexually, racially, or otherwise derogatory or discriminatory materials, statements, or remarks. All employees, including supervisors and managers, will be subject to disciplinary action up to and including termination for any act of harassment.

Individuals who believe they have been subjected to harassment should immediately report the incident to their supervisors, higher management, or their designated Human Resources Department contacts. All complaints will be promptly and thoroughly investigated.

Employees or supervisors who observe or become aware of harassment should immediately advise their supervisors, higher management, or their designated Human Resources Department contacts. No employee should assume that the Corporation is aware of a problem. All complaints and concerns should be brought to management’s or the Human Resources Department’s attention so that appropriate corrective steps can be taken.

No retaliation will be taken against any employee because he or she reports a problem concerning possible acts of harassment. Employees can raise concerns and make reports without fear of reprisal. Questions about what constitutes harassing behavior should be directed to the employee’s supervisor or Human Resources Department contact.
PROCEDURES & OPEN DOOR COMMUNICATION

Exxon Mobil Corporation encourages employees to ask questions, voice concerns, and make appropriate suggestions regarding the business practices of the Corporation. Employees are expected to report promptly to management suspected violations of law, the Corporation’s policies, and the Corporation’s internal controls, so that management can take appropriate corrective action. The Corporation promptly investigates reports of suspected violations of law, policies, and internal control procedures.

Management is ultimately responsible for the investigation of and appropriate response to reports of suspected violations of law, policies, and internal control procedures. Internal Audit has primary responsibility for investigating violations of the Corporation’s internal controls, with assistance from others, depending on the subject matter of the inquiry. The persons who investigate suspected violations are expected to exercise independent and objective judgment.

Normally, an employee should discuss such matters with the employee’s immediate supervisor. Each supervisor is expected to be available to subordinates for that purpose. If an employee is dissatisfied following review with the employee’s immediate supervisor, that employee is encouraged to request further reviews, in the presence of the supervisor or otherwise. Reviews should continue to the level of management appropriate to resolve the issue.

Depending on the subject matter of the question, concern, or suggestion, each employee has access to alternative channels of communication, for example, the following organizations: Controller’s, Internal Audit, Human Resources, Law, Global Operations & Sustainability (Safety and Risk, Global Security, Medicine & Occupational Health and Sustainability), and Treasurer’s.

Suspected violations of law or the Corporation’s policies involving a director or executive officer, as well as any concern regarding questionable accounting or auditing matters, should be referred directly to the General Auditor of the Corporation. The Nominating and Governance Committee of the Board of Directors of the Corporation will initially review all issues involving directors or executive officers, and will then refer all such issues to the Board of Directors of the Corporation.

Employees may also address communications to individual non-employee directors or to the non-employee directors as a group by writing them at Exxon Mobil Corporation, 22777 Springwoods Village Parkway, Spring, Texas 77389, U.S.A., or such other addresses as the Corporation may designate and publish from time to time.
Employees wishing to make complaints without identifying themselves may do so by telephoning 1-800-963-9966 or 1-346-335-6100, or by writing the Global Security Manager, Exxon Mobil Corporation, P.O. Box 7537, Spring, Texas 77387, U.S.A., or such other telephone numbers and addresses as the Corporation may designate and publish from time to time. All complaints to those telephone numbers and addresses concerning accounting, internal accounting controls, or auditing matters will be referred to the Audit Committee of the Board of Directors of the Corporation.

All persons responding to employees’ questions, concerns, complaints, and suggestions are expected to use appropriate discretion regarding anonymity and confidentiality, although the preservation of anonymity and confidentiality may or may not be practical, depending on the circumstances. For example, investigations of significant complaints typically necessitate revealing to others information about the complaint and complainant. Similarly, disclosure can result from government investigations and litigation.

No action may be taken or threatened against any employee for asking questions, voicing concerns, or making complaints or suggestions in conformity with the procedures described above, unless the employee acts with willful disregard of the truth.

Failure to behave honestly, and failure to comply with law, the Corporation’s policies, and the Corporation’s internal controls may result in disciplinary action, up to and including separation.

No one in the Corporation has the authority to make exceptions or grant waivers to the Corporation’s foundation policies. It is recognized that there will be questions about the application of the policies to specific activities and situations. In cases of doubt, directors, officers, and employees are expected to seek clarification and guidance. In those instances where the Corporation, after review, approves an activity or situation, the Corporation is not granting an exception or waiver but is determining that there is no policy violation. If the Corporation determines that there is or would be a policy violation, appropriate action is taken.
